

CushionEase Ergo Anti Fatigue Mat Tiles

CushionEase Ergo Anti Fatigue Mat Tiles are thick, comfortable anti-fatigue mats with a modular design that makes custom installations a breeze. These extremely comfortable anti-fatigue industrial mats and available edge ramps firmly snap together in any configuration.

The edge-snaps can be undone easily for reconfiguring your floor layout at any time. The modular design works with any of our CushionEase modular comfort floor mats, allowing you to have a continuous area of anti-fatigue matting with different zones tailored to particular needs.

The $\frac{3}{4}$ " overall thickness, bubble top surface, and comfort base design increases staff comfort levels and decreases fatigue. Decreased fatigue can increase worker productivity and decrease injuries. Available edge ramps also eliminate tripping hazards.

Perfect for use in industrial, manufacturing, assembly, repair, automotive and home garages, or anywhere durable, comfortable and resilient comfort floor mats are desired.

- $\frac{3}{4}$ " thick overall with a bubble top surface
- Comfort grooves on the back increase comfort
- Works with other CushionEase products
- Easy to configure and reconfigure as needed
- 3' x 3' modules firmly snap together
