

Everlast Rubber Runners

Everlast Rubber Runners are solid rubber mats made from recycled crumb rubber. These rubber runners are built-to-last commercial grade mats that are perfect for any environment needing a non-slip rubber flooring.

These durable rubber runners have a standard 4 foot width and can be ordered in any desired length up to 100 feet. Choose from either a 1/4" or 3/8" mat thickness and either solid black or with one of several different color fleck options. Please note that the 1/4" is only available in solid black or 10% Grey or 10% Blue color fleck.

Everlast Rubber Runners may be used for a multitude of different applications, both commercial and residential. These rubber rolls may be used as runners down aisles and corridors, in warehouses, retail locations, manufacturing facilities, gymnasiums and work-out areas, for sound absorption and insulation from cold floors, or anywhere needing quality commercial grade rubber flooring.

Easily clean these rubber rolls with a damp mopping of soap and water.

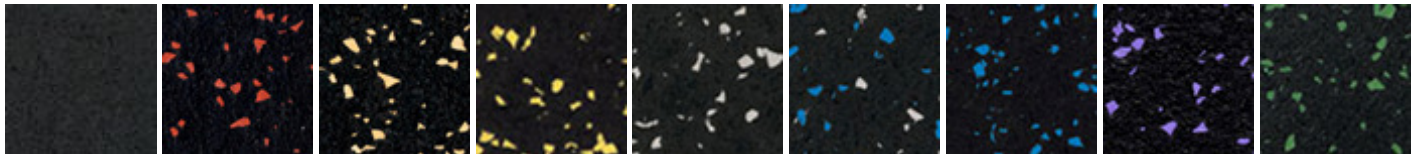

Item No: FM.GEVRM
