

Modular WorkSafe Anti Fatigue Mats

Modular WorkSafe Anti Fatigue Mats are anti-fatigue comfort mats suited to high-traffic and high-maintenance areas. Mats can be linked together to form runners, rectangular and custom shape floor mats. Available in two different compounds to suit a wide range of applications.

The open design further enhances the ergonomic benefits, and allows for drainage and debris capturing. Debris is held securely within the open holes to prevent slip/trip/fall accidents while fluids flow right down through the mat.

100% natural rubber (GR): This formulation is designed for use in wet / dry areas where exposure to water, sawdust, grinding dust, metal shavings and dirt are common.

Nitrile rubber blend (GP): For use in situations where exposure to petrochemicals is an issue, choose these mats blended with nitrile.

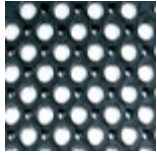

- Designed for comfort: 1/2" thick, open flexible design
- Raised traction ridges, rounded safety edges
- Easy to configure, light weight and easy to clean
- Secure mechanical semi-permanent fastening system
- 1 year warranty standard on these floor mats
